Hi, I'm calling for the release of Oscar López # 87651-024 and I live in Chicago [NY, etc.]  
The Parole Commission should reconsider its order denying him parole, and grant him immediate parole.

*IF YOU HAVE TIME, USE ONE OF  
THE FOLLOWING REASONS:*

*1) Oscar has the support of a broad sector of Puerto Rico's civil society as well as Puerto Rican/Latino communities and those who support human rights throughout the United States.*

*2) Oscar was not accused or convicted of causing injury or taking a life. He was never accused or convicted of participating in the 1975 Fraunces Tavern bombing or any other action that resulted in injury or death.*

*3) President Clinton's determination that Mr. López Rivera's sentence was disproportionately lengthy, and his offer that would have resulted in Mr. López Rivera's release in September of 2009.*
